The Council for Tobacco Research-U.S.A. Inc.
900 Third Avenue
New York, NY 10022

Dear Sirs,

I am writing to request information on the possibility of applying for a research grant from your organization. The general topic of my proposal would be how the brain's arousal mechanisms respond to general anesthetics, with a particular focus on a strongly nicotinic region that has an anomalous response during general anesthesia. It seems to be highly pertinent to the interest of The Council for Tobacco Research in learning how tobacco use affects health.

Please send me more details, such as application forms and reports, or call me at 815-395-5679.

Yours sincerely,

Ian D. Hentall

Ian D. Hentall, Ph.D.
Associate Professor of Physiology.
